**Re: Planning/Zoning Considerations for proposed annexation**

**Ms. Rathbun :**

In my estimation, the property in question formerly Tract 1, Lands of King, TION R7E SEC 36 lies within the *proposed* primary commercial corridor of the Town of Edgewood, and therefore, will be zoned CB (Commercial Business) if annexed. No special permits are currently required in a CB zone for a general contracting business, unless on-site materials processing or manufacturing is involved. Unless any such special permit is required, there will be no other impediments to obtaining a business license for a general contracting operation. Also, there are no lot-size requirements or limitations in a CB zone.

I hope this information is useful. Please don't hesitate to contact me, if you have any other questions.

6. Discussion: Zoning of land to be annexed at the September 6, 2000 Council meeting:  
Comments: all zoning was done in accordance with the precedents previously set by the zoning commission, the expressed inclinations of the Town Council and residents. Commercial zoning was directed to 2000-31 and 2000-32 as it represents land surrounded by commercial property.

**The zoning commission would like to bring it to the councilors attention that the file for 2000-33, an annexation request for 59 acres, contains a land use violation. The zoning commission recommends R-1 for this land if annexed, but the Council must understand that any prevailing land use will be grandfathered, in accordance with the Zoning Ordinance.**

7. Discussion of the Comprehensive Draft:
  - A. Mr. Steve Alejarando had some questions of statements in the comprehensive draft referencing animal control and a concern that the future impact of growth on landowners with large domestic farm animals. Persons owning burros, horses, llamas, etc. are concerned that there is not a statement in the plan protecting their way of life and impacting their ability to sell their land as a result.
  - B. The Commission unanimously requests a statement referencing the desire for future placement of utility services be underground as are the services for Section 16. This request is specifically directed toward the northernmost sections of Edgewood which comprise a great deal of flat land.
8. The commission is debating the idea of going back to the original monthly meetings as the development requests are slowing. Feedback is requested from Staff and Council.
9. In review of the zoning change request made by the Bassett/King entity the commission would like to find out more about the proposed land sale and to get feedback from neighboring residents about the idea of the Lafarge Corporation extending its operations. This matter will be set-up for a public hearing as soon as possible.
